Fattahan Adeiza Taiwo

Software Engineering Student

Hi, I'm Fattahan, a passionate Software Engineering student with a creative twist. I thrive at the intersection of technology and design, blending my technical skills with user-centered design principles. I'm driven by innovation and love crafting intuitive, impactful solutions through sleek user interfaces and thoughtful design. I'm always eager to learn, collaborate, and push boundaries to create meaningful user-centered designs that solve complex technical problems.

Problem solving and Foward thinking

PERSONAL PROJECTS

Redesigning the Amazon's website (08/2024 - 09/2024)
- I created a more intuitive, less overwhelming and user friendly interface design for the search result page, product page, reviews and also streamlined the checkout process preventing users from abandoning cart due to frustration ⧉

Fitness pal (01/2024 - 01/2024)
- I drafted out a very innovative fitness app solution, integrating features like time-lapse, community feed, challenges and daily activity tracker ⧉

Asset Access (A tokenized real estate market place) (01/2025 - Present)
- New to web 3 design, I conducted research, brainstorm with other stakeholders and the aftermath was a user-centered solution, with intuitive interface and great user experience ⧉
